

Odessa Eco-Cycle 150 Material Recycled Billboard Scroller 150gr/m2

With its superb whiteness, Eco-cycle 150 is ideal for the reproduction of complex high quality four colour imagery and can process a number of finishing techniques with ease.

Eco-cycle 150 is a white triple coated sheet, manufactured from FSC® Recycled certified fibre derived from 100% pre and post-consumer waste.

Clients report a 40% reduction of CO2e, when using Odessa EcoCycle 150, compared to silk paper

Its environmental credentials are equally as impressive.

- ✓ **Made from FSC® Recycled certified post-consumer waste pulp**
- ✓ **Manufactured in accordance with ISO certified standards for environmental, quality and energy management**
- ✓ **Carbon Balanced**
